

Transportation Committee

Sep. 28, 2016

In attendance: Michael Russelle, Steve Yetter

Kasota Ponds	<p>There appears to be junk in the turnaround area, so there may be some question as to the efficacy of the cameras. The dumping that's happening now isn't being cleaned up, including office copy machines. Although, the turnaround has been cleaner than it has been in the past. It might be more effective to have signs with the cameras; no signs announcing them have ever been put in.</p> <p>Cailin to follow up on whether the camera footage is being checked and to see if we can get signs put in. Is it being used as a turnaround for big trucks?</p> <p>We are anticipating a large clean up job this spring.</p>
Neighborhood Clean Up	<p>Shepard Rd. has a great set up because they are able to block off the road just for the clean up. Cailin to send out a note asking people to volunteer for the neighborhood clean up.</p>
Goals	<p>The group discussed the Ten Year Plan and how to be helpful and supportive in the process of outlining goals.</p>
GIS Work	<p>Cailin to get write-up from Amanda on her work. Review for publication on the website. We will need to have a feedback form accompanying it. Then we'll need to have a public meeting about it. Have a Park Bugle article on it.</p>
Environment Committee Web Content	<p>The group discussed making the site more accessible. They would like to see the agendas published to the Environment Committee site, links to the minutes on the page, and agendas/minutes sent as a link and not an attachment.</p>
Staff Update	<p>Cailin updated on the Land Use committee, CURA students, and the work of the Transportation Committee.</p>
Adjourn	<p>Started at 7:18 pm. Ended at 8:44 pm.</p>
