Aging in Community Checklist—Health, Supportive Services, and Food Access

The Saint Paul Advisory Committee on Aging (ACOA) is happy to share another key checklist with your district council about aging in community. These checklists were compiled and adapted by Saint Paul–Ramsey County Public Health.

The goal is to help you identify the essential features for healthy aging in community and concrete actions to help create them.

The checklist, focused on health, supportive services, and food access, is below (a PDF is also attached). Future checklists will cover transportation, buildings, mobility, and more. We are sharing these with you on a quarterly basis, along with other pertinent information we think you will find helpful. We hope that you will distribute this and future checklists to your board in the next board meeting packet.
