

LAND USE COMMITTEE - January 6th, 2022 - 7pm

Land Use Committee discussion on blocking off Charles:

- We need to keep the west end of Charles blocked off with KA construction ends to enable gradual evolution to a suitable public space
- We need to meet with Sean Kershaw at Public Works as soon as possible due to Mike Hahm's imminent retirement.
- We need to be more specific about the proposed space before we meet with Sean
 - make a decision on proposed project boundaries
 - Draw up a visual concept
 - Can Stephen Mastey do this? Or is the task group already recruiting someone for this purpose.
- We also need to figure out funding sources for public space creation and maintenance
 - Could part dedication fees suffice for some of this purpose?
